## Summary

I am a skilled web developer with a deep passion for crafting beautiful and functional applications. With experience in both frontend and backend development, I've successfully completed internships and projects, demonstrating strong technical skills and creativity. My commitment to delivering high-quality web experiences drives me to continuously improve and innovate in my work.

## Experience

### Smart Tech Solutions

Islamabad, Pakistan

#### Frontend Developer

10/2024 - 11/2024

Information and communication sector

- Successfully completed a two-month internship focusing on ASP.NET Web Forms, front-end and back-end development, JavaScript version control, API integration, and UI/UX principles
- Gained hands-on experience in designing and developing web applications while demonstrating excellent professional and technical skills

### Ikhaith Pvt Ltd

Haripur, Pakistan

#### Frontend Web Developer

03/2022 - 03/2023

Information and communication sector

- Contributed to key web projects with dedication and creativity during a one-year internship
- Recognized for professionalism, attention to detail, strong teamwork skills, and commitment

## Education

### University of Haripur

Haripur, Pakistan

#### BS Software Engineering

08/2020 - 07/2024

## Key Achievements

#### ♥ Doctor Appointment Web Application

Successfully designed a comprehensive Doctor Appointment web application that spanned over 50 pages, which allows patients to search for doctors, book appointments, and manage their bookings

#### 🧠 Hattar Association Website

Played a key role in developing the Hattar Association website, showcasing my expertise in delivering a seamless user experience

#### 🍲 Omnifood Website

Developed a responsive website for Omnifood that enhances user engagement through features like AI-powered meal planning and interactive functionalities

## Skills

Reactjs • JavaScript • Bootstrap • CSS • HTML

## Training / Courses

**React.js Course** — In the two-month React.js course, I learned the basics of building web applications, including component-based architecture, state management, and using hooks like useState and useEffect. I practiced creating dynamic interface handling events, and integrating APIs. By the course's end, I completed projects that solidified my understanding React.js

## Projects

### Doctor Appointment

Islamabad, Pakistan

10/2024 - 11/2024

Comprehensive web application for doctor appointment management

- Designed and developed a comprehensive Doctor Appointment web application using HTML, CSS, JavaScript, and ASP.NET Web Forms
- Enabled patients to search for doctors, book appointments, and manage their bookings with a user-friendly frontend

## Projects

---

### Hattar Association

Haripur, Pakistan

10/2022 - 11/2022

Frontend development for a community organization

- Played a key role in frontend development for the Hattar Association website, focusing on user experience
- Utilized HTML, CSS, and JavaScript to ensure high-quality website delivery

### Omnifood

Online

08/2024 - 09/2024

Subscription-based healthy meal delivery service website

- Developed a modern, responsive website for a subscription-based healthy meal delivery service
- Implemented features including AI-powered meal planning, 5,000+ recipe options, and an interactive sign-up section

## Interests

---

### Web Development Passion

I am passionate about creating beautiful and functional user interfaces while continuously improving my skills in web development
